

LEGACY BODY SAMPLE

Pretend this is an unrestyled page

Hard-coded greys + sharp corners + Geist-ish weight to mimic a page that hasn't been touched by the redesign yet. The shell's `.legacy-body` reset forces `bg-rd-bg-page` on the `<main>` wrapper so the surrounding warm chrome reads cleanly. This card is intentionally white to show the contrast.

Sample legacy card — sharp corners, cool grey.

SHELL PREVIEW · ONBOARDING

Sample Onboarding body

This body renders on rd tokens so the shell PR can be reviewed independently of any page-body restyle. Each authenticated page will replace this sample with its real content as we work through the rollout in tasks/redesign.md.

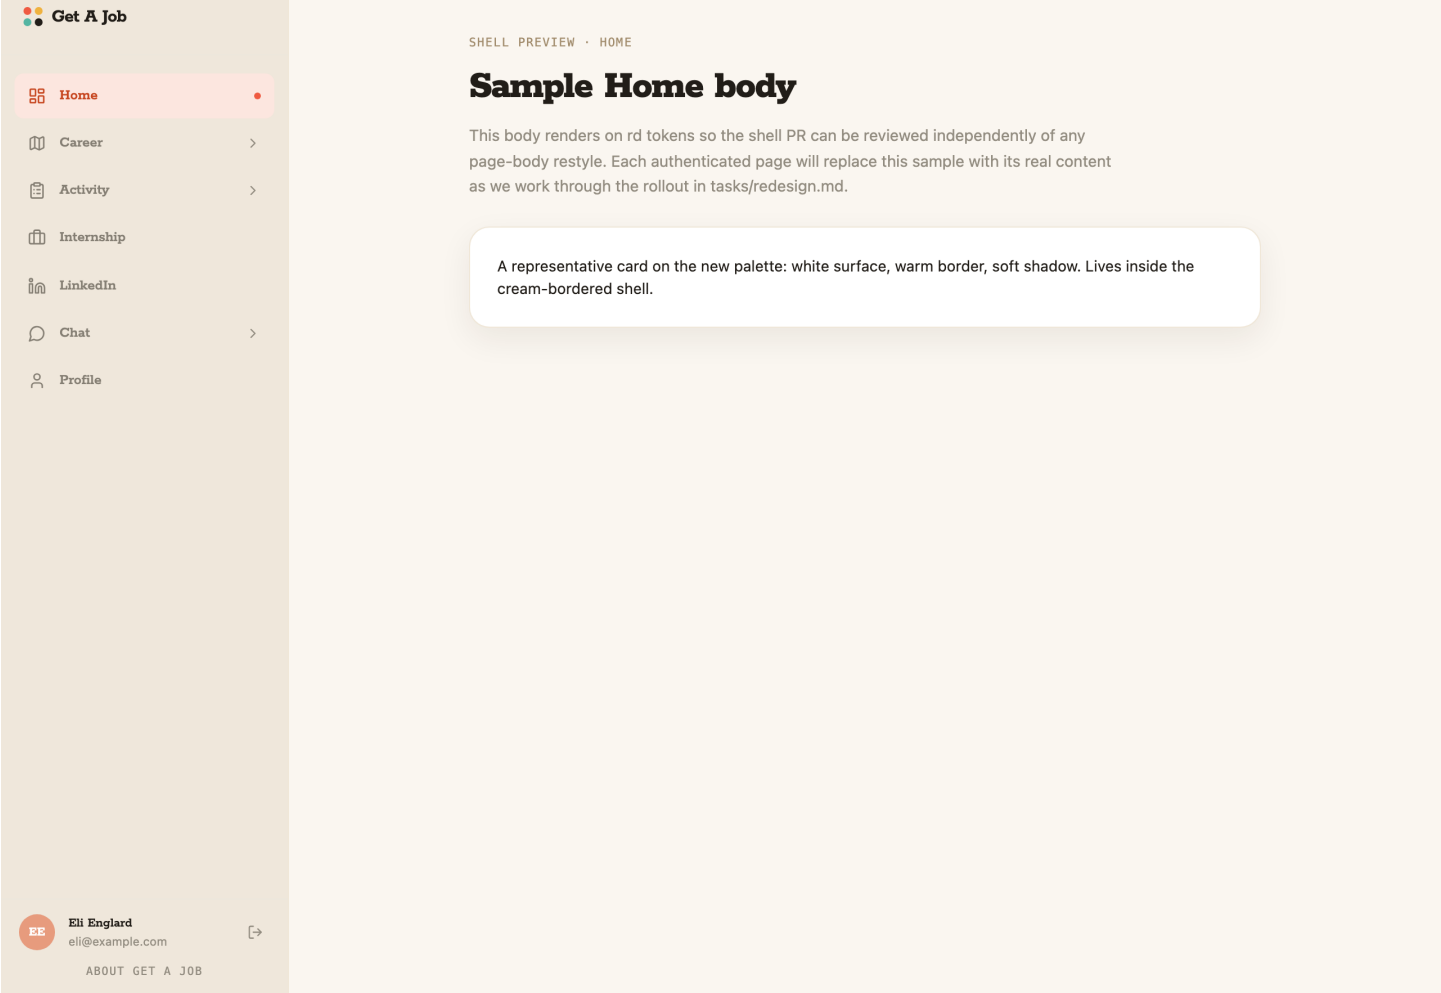

A representative card on the new palette: white surface, warm border, soft shadow. Lives inside the cream-bordered shell.

SHELL PREVIEW · HOME

Sample Home body

This body renders on rd tokens so the shell PR can be reviewed independently of any page-body restyle. Each authenticated page will replace this sample with its real content as we work through the rollout in tasks/redesign.md.

A representative card on the new palette: white surface, warm border, soft shadow. Lives inside the cream-bordered shell.
