HOW TO USE THIS PIPELINE

Every application has a **7-step process**. Open any application and go to the **Steps** tab. Work through each step before submitting — candidates who skip steps are the ones who get ignored.

Steps 1–2

Qualify yourself. Dissect the job description. Know the role before applying.

Steps 3–5

Tailor your CV, map skill evidence, and find a referral contact at the company.

Steps 6–7

Submit your application, then prep for the interview with STAR-format answers.

☆ 🌟 Referral = your biggest edge

Many companies offer referral bonuses to employees when a referred candidate gets hired. They're incentivised to get you in.

Pipeline board

Drag a card between columns to update its status. Click any card to open the steps checklist.
