REASONING

You hit the qualification bar on the customer + analytical axes. The two missing skills (roadmapping, sprint cadence) are typically built on the job in the first 6 months.

Associate PM is the natural first step toward your stated 5-year goal of Product Manager. Direct path, no detour.

MATCHED SKILLS

✓ Customer Communication

✓ Data Analysis

✓ Stakeholder Management

MISSING SKILLS

✗ Product Roadmapping

✗ Sprint Planning

ACTION ITEMS

→ Ship a personal product side-project (1-page README + roadmap) to prove roadmapping intuition.

→ Read 'Inspired' by Marty Cagan — the canonical PM reference for the framing your interviewers will use.
